

ADVANCED HEAT TREATMENT

AsureQuality's two day Advanced Heat Treatment course has been developed to provide knowledge of the requirements of heat treatment for Dairy Manufacturing under the Animal Products Act 1999, specifically DPC3: Animal Products (Dairy) Approved Criteria for the Manufacturing of Dairy Material and Products. Topics covered include; the purpose for heat treatment, regulatory requirements, HACCP, effects on milk constituents, heat transfer, batch process and the monitoring and control of batch process, types of heat treatment, batch and continuous systems and their components and preventative measures for product contamination.

KEY BENEFITS

- › Understand the purpose of heat treatment and its importance in the manufacture of safe dairy product.
- › Provides a general understanding of the technical components of a heat treatment system and their purpose.
- › Provides the trainee with the understanding and knowledge required to operate and monitor heat treatment critical control points and control measures.

WHO SHOULD ATTEND

- › Personnel with specific responsibilities for heat treatment operations
- › Pasteuriser Operators
- › Supervisors

UNIT STANDARDS ACHIEVED

- › 19334 - Operate and maintain heat treatment critical control points for milk processing (level 4) (5 credits)
- › 4829 - Explain heat transfer and heat treatment in the dairy industry (level 3) (4 credits)

COURSE DETAILS ^{iv}

Prerequisite:

In order to meet unit standard assessment criteria, people who attend this course need to be directly involved with heat treatment operations.

Course Length:

2 days

Assessment:

Conducted approximately four weeks after course completion. Assessment is not compulsory.

Pricingⁱ:

\$777.00 + GST per person (minimum of 5 trainees per course)
