

# ADVANCED AUDITING SKILLS MEAT INDUSTRY

**This course is designed for people interested in conducting audits or newly appointed internal auditors with no previous knowledge of auditing. Attendees are first taught the fundamentals of quality management and auditing before the process of conducting a quality audit is explained. The course ends with a practical assessment of the attendees conducting a quality audit in their company. Successful completion of this course will assist new auditors with becoming eligible for registration with an auditing institute.**

## KEY BENEFITS

- › Understand the principles and philosophies of quality management
- › Learn how to apply quality management concepts in your company
- › Teaches the fundamental principles of quality auditing including how to define the scope of an audit and how to write the final audit report
- › Understand the roles and attributes of an auditor and how to audit ethically
- › Attendees are practically assessed conducting a quality audit

## WHO SHOULD ATTEND

- › Internal Auditors
- › People who want to become an Internal Auditor
- › People who want to gain the knowledge of conducting audits
