

# PROCESS CONTROL AWARENESS

■ ■ ■

**Our Process Control Awareness course is a programme designed for all personnel who have responsibilities for process control in their department. This course aims to give supervisors the confidence to handle audit situations and demonstrate the ability to audit and control their process. The course also includes a practical calibration exercise to ensure all attendees are competent.**

## KEY BENEFITS

- › Ensures regulatory and customer requirements are being met.
- › Increases staff awareness of process control within their department.
- › Increase understanding of the regulatory requirements of process control, impact of failures, recognition and rating of defects, corrective and preventative actions and managing a process to the required documented standard.

## WHO SHOULD ATTEND

- › Department supervisors
- › QA staff
- › Technical staff
