

TRADE STAFF TRAINING

...

This course is designed to provide meat industry engineering and maintenance personnel with the knowledge required to understand the food safety requirements relevant to their role and the consequences of failing to ensure food safety. These requirements include design, construction, hygiene and sanitation as documented in Industry Standard manuals and required by legislation and international markets. The course covers the principles of best practice and the ramifications of poor design and construction.

KEY BENEFITS

- › Promotes the company's commitment to meeting and exceeding customers' expectations
- › Demonstrates to Trade Staff the role they play in ensuring food safety
- › Addresses client quality systems and the importance of compliance by all personnel on-site
- › Provides confidence to NZFSA that all aspects of food safety are addressed

WHO SHOULD ATTEND

- › All Engineering and maintenance personnel operating within a meat processing plant
- › External contractors working on-site

UNIT STANDARDS ACHIEVED
